Indian Vaccines Corporation

*264. SHRI JANARDAN YADAV:

SHRI TRILOKI NATH CHATURVEDI:

Will the PRIME MINISTER be pleased to state:

(a) what is the present status of the Indian Vaccines Corporation Limited and how much amount has been spent on the project together with the break-up contributed by the equity holders;

(b) whether it is a fact that the Corporation is being abandoned and if so, the reasons therefore; and

(c) what are the objectives for which the institutions were sponsored and whether any change is being contemplated in them?

THE MINISTER OF STATE IN THE PRIME MINISTER'S OFFICE AND THE MINISTER OF STATE IN DEPTTS. OF ATOMIC ENERGY, SPACE AND MINISTRY OF SCIENCE & TECHNOLOGY (SHRI BHUVNESH CHATURVEDI): (a) to (c) The Indian Vaccines Corporation Ltd. (IVCOL), a joint venture company to manufacture human viral vaccines has been promoted by the Development of Biotechnology (Govt. of India) and the Indian Petrochemicals Corporation Ltd. (IPCL), Baroda, alongwith the Pasteur Mereiux Serums and Vaccines (PMSV), France. The expenditure incurred is about Rs. 23.09 crores; the equity contributed by the three promoters is Rs. 6.26 crores by DBT; Rs. 6.26 crores by IPCL; and Rs. 5.35 crores by PMSV. The initial

objective of IVCOL was to produce: 20 million doses of measles, 10 million doses of inactivated polio (IPV), 2 million doses of rabies and 40 million doses of quadruple vaccines. As per the policy of the National Immunisation Programme to use only the oral polio vaccine (OPV) for polio control, a review of the "product mix" of IVCOL has been done. The experts are examining the possibility of indigenous production of OPV using the verocell lines. The negotiations are under progress for further implementation of this project.

Eosat to purchase satellite Data Generated by IRS-1B

*265. SHRI K. R. MALKANI: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that the USAs Earth Operation Statellite Co. (EOSAT) has offered to purchase satellite data generated by the Indian Remote Sensing Statellitte (IRS-1B), since it has been found to be superior in quality to the data generated by the USA's own LANDSAT, as reported in the Times of India, dated June 19, 1994; and

(b) whether Government are exploring the possibility of more such scientific and technological transaction with the USA and other countries?

THE MINISTER OF STATE IN THE PRIME MINISTER,S OFFICE AND MINISTER OF STATE IN THE MINISTRY OF SCIENCE AND TECHNOLOGY AND MINISTER OF STATE IN THE DEPARTMENTS OF ATOMIC ENERGY AND SPACE (SHRI BHUVNESH CHATURVEDI): (a) USA's Earth Observation Satellite Company (EOSAT) a Commercial Company, has entered into agreements with the National Remote Sensing Agency (NRSA), an autonomous society under the Department of Space, to receive, sell and market the data from IRS-1B Statellite in the international market. The primary reason for EOSATs interest in IRS-1B data is to have complementary data from various satellites for resources management.

The IRS data is comparable with USA's LANDSAT data in quality and is useful for many applications related to resources survey and management. Since in the global market there is a large demand for Remote Sensing Satellite data, EOSAT is interested in promoting IRS data as an additional data-set to LANDSAT data.
